BIG ADVANCE BEGINS

ATTACK ON AMERICAN SECTOR IN VICINITY OF RHEIMS

Looked Like an Electrical Storm

(By Associated Press.)
PARIS, July 15.—Inhabitants of Paris and its suburbs, says Le Matin, heard violent artillery firing during the early hours today. The sky toward the east is constantly lit up as if by a great electric storm.
Those on the boulevards after midnight listened to the cannonade while small groups gathered to watch the heavens. Noise of the firing was particularly loud in the southern part of the city.

OAKLAND SHIPYARDS SCENE OF A STRIKE

(By Associated Press.)

DETACH RHEIMS JAPANESE WILL THE MAIN OBJECT BUILD 30 SHIPS BIG MOVEMENT CARRY CARGOES

STRATEGISTS SAY KAISER SEEKS PROTECTION FOR RIGHT FLANK OF ARMY

(By Associated Press.)
LONDON, July 15.—The immediate object of the Germans it is considered here is probably to detach Rheims by attacking on both sides and capturing the hills which would protect their right flank on a further advance southward.

TWENTY ONE MEN MUST JOIN FLAG

L. E. Glass, clerk of the local exemption board, has received positive orders to prepare 21 men to entrain July 27 in accordance with the order of the adjutant general. When this clerk came to the final checking of names he could only find 13 available men in class 1, but the difficulty was overcome by another order received this morning by which the clerk was advised that registrants of the second draft on June 5th could be inducted at once. This will be the first inroad on the baby class as all members are those who reached their majority during the year previous to the date of registering.

They're off. As they say at the races, the bunch got away with a flying start. Under the most auspicious circumstances the fifty-five volunteer "Hun killers from southern Nevada" departed on their mission with the colors of Uncle Sam Sunday morning and, with the applause of thousands ringing in their ears and disputing volume with shrieking whistles and mine sirens, the boys remained at the car windows waving their hats until the train vanished around the curve and disappeared down the gulch.

Never was there a more spectacular staging of an event. The day was superb and the turn out of citizens one of the greatest of the many that have signaled the departure of Nye county boys for the front line of duty. There could not have been less than 3000 persons in the throng that congested the cramped trackage at the foot of Main street and, when

NEVADA HUN KILLERS GIVEN GREAT SENDOFF

It is considered, that at least another 1000 or 1500 had to report for duty at the mines and mills, it was evident that the whole town turned out to greet the valiant volunteers at the first stage of their journey and wish them a safe return.

Those who have accompanied other squads of recruits, or conscripts, have become familiar with the grouping of the allied colors but, it should be said, that never did the greens, blue, white, reds, orange, black ever appear to better advantage or in more artistic setting than they did yesterday when they were assembled on a baggage truck which served for a temporary platform as the Musicians' Union band struck up the soul stirring "Marseillaise" and the crowd uncovered in deference to the anthem of the day Tonopah joined the French in celebrating.

The march began at the Elks club where the volunteers gathered, each

man carrying his comfort kit which had been presented at the Airborne the previous evening. Every man was in the best of spirits and it was remarked that there was not a sad note in the proceedings. Every organization in Tonopah was fully represented with members, buttons and banners and the turnout of Red Cross workers and the Woman's Relief Corps imparted a softening touch to the procession.

The management of the Tonopah & Goldfield railroad was somewhat chagrined over the failure of their connecting line to furnish an extra day coach for the accommodation of the men. The coach had been requested and notice received that it would be here but through some cause the extra car failed to materialize and the result was that the single coach was badly congested.

WITH THE AMERICANS ON THE MARNE, July 15.—In an attack on the Marne front the Germans threw many bridges across the river. Over these the Germans are passing under a withering fire from artillery. The German progress is being stayed by machine gunners. American and their French comrades have resisted the enemy to the utmost and are continuing this character of resistance.

LONDON, July 15 (Official)—In an operation carried out last night the British positions south of Villers-Bretonneux in the region east of Amiens were improved. A few prisoners were taken. Enemy artillery displayed activity south of Arras and Flanders on the front north of Bethune and in the Loire and Dickenbusch sectors.

A British attack in Flanders was launched on a front of 2000 yards in the neighborhood of Ridge wood on the Dickenbusch sector. The attack took the enemy by surprise and was successful. All objectives were gained. Not all material captured has yet been collected.

HAYTI DECLARES WAR

(By Associated Press.)
PORT AU PRINCE, Hayti, July 15.—Hayti has declared war on Germany.

of towns in rear of the lines began shortly after 6 o'clock.

At 8:15 the latest reports say the Americans are holding their own in fighting and maintaining their positions.

Heavy shells from German naval guns are falling in regions far behind the actual battle area, many of these projectiles having fallen in the city of Meaux, twenty-five miles from Chateau Thierry. In many of these towns the German shell fire was constant, the projectiles being from 10- and 12-inch naval guns.

Reports from American advance positions said the American troops were "handling the enemy well" in the desperate fighting which is continuing.

8:50 a. m.—At this hour it has not been determined how the battle in the vicinity of Vaux is progressing. The whole line in both directions from that town is dense with smoke and gas fumes. The roar from the cannonade is punctuated in the few intermissions with the terrific din of machine gun and rifle fire which seemed to be of the hottest character in the town itself.

11:15 a. m.—The American forces on this front delivered a counter attack in the Vaux region this morning and drove off the enemy. It is reported that the Americans have advanced their own lines a distance of several hundred yards, but this is not confirmed.

1:40 p. m.—The American advanced their line in the Vaux region about 700 yards and then retired for strategic reasons. The American barrage broke up the enemy waves and drove them back in confusion.

It is clear that the German attack in the Vaux region broke down completely under the American counter attack. Further sharp fighting is likely to develop in this area at any time, however. At 11:20 o'clock the word received shows that the enemy also launched an attack east of Rheims but, on the sectors where the French and Americans are fighting side by side the positions are reported intact.

The American machine gunners let the enemy come close and then opened a deadly fire into the advancing close formations of Germans. Shortly after 11 one of the American infantry regiments launched a counter attack in the region of Conde. Reports received shortly after 11 on the fighting east of Rheims said the enemy up to about one hour previously had made no progress whatever there.

In the Ridge region the British completely restored the penetrated positions. More than 500 prisoners, including 250 Germans, were captured.
